OTR 325

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director of Training

m3

DATE: 26 May 1953

FROM : Training Methods Specialist/TAB

SUBJECT: Portable Audio Visual Device, Prototype II

1. A memorandum was prepared and distributed to all Liaison Training Officers on 21 April 1953. The memorandum explained:

a. OTR has a dual track audio-visual tape recorder and a film strip projector.

b. The characteristics and capabilities of this prototype as designed by TSS.

c. The prototype is available for demonstration.

d. Any comments or recommendations should be forwarded to the Director of Training by 15 May 1953.

2. Those who have seen the machine demonstrated are listed in Attachment A.

3. No comments or recommendations for modifications were received from the above group. Their needs seemed to be personal or individual rather than of a representative group, which would involve more than one machine.

4. TSS has secured additional technical information from certain industrial sources which should make the capabilities of Prototype II more adaptable to the present needs of the Agency.

25X1 5. [] of Commo has requested to borrow the device for a one-week trial by his division.

25X1 6. I recommend that Prototype II be built by TSS incorporating the modifications made by [] of LSD/OTR. 25X1-
